Model

Determine what agencies and program will collect data

Screens

Decide on an enrollment and exit screens for programs collecting coordinated entry data.

- □ HUD standard or minimum screens or custom screens
- Configure screens if needed

Templates

- □ Add the enrollment screen to the template
- Add the exit screen to the same template
- Enable the Current Living Situation in the template

Assessments

Decide on an assessment(s).

- □ Use the pre-configured VI-SPDAT assessments or create a custom assessment
- CE Toggle= On (for applicable assessments)
- Eligibility Engine = On
- Configure an assessment processor, if needed
- Select the Assessment Processor on the assessment screen
- Enable assessment screen settings (i.e., Recent Assessment Warnings)
- Customize the assessment location field in the Field Editor
- Enable CE assessments for agencies doing CE data collection
 - Set Assessment Usage to Programs Only
 - Enable cascading, if desired

Bitfocus Coordinated Entry Configuration Checklist

The Coordinated Entry Configuration Checklist guides you through configuration for the commonly used workflows and aligns with the HUD Coordinated Entry Data Standards. For more information about any of the components below, please visit the Help Center.

Programs

For program completing CE assessments:

- Configure/update programs that will collect CE data
- Add the CE template to the program
- On the right sidebar, add Community Queues to the program
- Enable program settings
 - Consider using Auto-Exit due to Inactivity, Auto-Exit to Permanent Destination, & Cascade Assessment Data
- Add the CE assessments to the program
 - Add assessments to the Program Assessment section Add assessments to the Cascade Assessments section

Coordinated Entry Events

For programs completing CE data collection,

Access Roles

Configure manual events for programs entering

Enable Inferred CE Events under Referral

For programs receiving CE referrals:

- Project Receives CE Referrals: On
- Public Listing: Public
- Eligibility toggle: On
- Add Responsible Staff Members
- Availability: set to Full or Limited Availability

Referral Settings

- Edit or create Referral Settings
- Enable Community Queues, if desired
- Enable multiple queues, if desired

For more information about Community Queue configuration, please see the Community Queue Configuration Checklist.
