- Upcoming Events

Clarity Human Services Updates

New Features In Clarity Human Services

Bitfocus is excited to announce new feature updates in Clarity Human Services that were released on **May 17**. Key features include: updated labels and auto-messages, date range error checks for services, and updates to Clarity report logic.

In addition, on **May 23**, several changes to the Data Analysis models were released and have been included at the bottom of this article.

Report Spotlight

Report Spotlight: [EXIT 101] Potential Exits

This month's report spotlight is the EXIT-101 Potential Exits report, which is found in the report library section of Clarity Human Services. The report determines if clients need to be manually removed from the program with the correct destination selected, avoiding whenever possible the destination responses of: client doesn't know, client refused, and data not collected. These simple steps will create clean data and help the overall system perform better.

It's a win-win!
