- Report Spotlight: [DQXX-121] Project Start Date > Project Exit Date
- Coordinated Entry Events are Live!
- Meetings/Upcoming Events
- Bitfocus Holiday dates
- Bitfocus is Hiring!

Announcements

2022 Federal Reports Updates

The 2022 federal reporting season is here! Last month we started data clean-up for The Longitudinal Systems Analysis (LSA) and System Performance Measures (SPM) CoC reports. We looked at data quality around overlapping enrollments, program enrollments where the start and end date don't line up, length of stay, and utilization in programs where there is a bed and unit count. Over the next

month, we will add communications regarding data quality for program inventory, funding sources, and additional types of bed errors. Thank you for your patience and quick responses!

Report Spotlight

[DQXX-121] Project Start Date > Project Exit Date

This report offers a proactive view of project enrollments where the Project Exit Date is before the Project Start Date. These situations can occur during data integration and in some situations where the project start or exit date is updated after the fact.

Project Start Date > Project Exit Date	Instance Wide
--	----------------------

Agency Name

Project Name	UID	Start Date	Exit Date	URL
		08/13/2019	08/24/2017	->

[Link to the Enrollment Screen](#)

Project Name	UID	Start Date	Exit Date	URL
	A9E2178E4	11/20/2019	01/09/2019	->
	BE1ECC6DD	08/17/2020	08/23/2017	->
	BF044A3B8	12/22/2019	06/29/2017	->
	C9B3FB827	01/13/2021	05/02/2015	->

This report contains:

- List of clients under each program where the client was exited from the program we a date that is prior to the enrollment date

To run the [DQXX-121] Project Start Data > Project Exit Date:

- Log into Clarity and navigate to the Report Library (Reports under the Launcher menu in the upper right corner).

- Locate [\[DQXX-121\] Project Start Date > Project Exit Date](#) under the Data Quality Reports Section.
- Under Report Output Format select Web Page, PDF or Excel (choosing Web Page will allow you to click on the client name or ID and automatically open up the client profile in Clarity Human Services).
- Click the OK button.

News

Coordinated Entry Events are Live!

Communities are now able to set up and record inferred Coordinated Entry events as manual events if desired (inferred events are recorded automatically by the system; manual events are recorded by the user in the client enrollment record). Manual events will now be configured and recorded within a program-level *Events* tab instead of through services.

While many agencies with inferred Coordinated Entry events will not see any change, some agencies saw an update in their Service tab in Clarity. Now, within the program enrollment, there is an Events tab alongside the Service tab.
