## Updates

### Veteran Queue Referral Updates

The following provides clarification regarding the Veteran Queue Referral process.

- **Eligibility for Referral:** Only clients who score **4 or higher** on the assessment, regardless of veteran status, should be referred to the queue.
- **Veterans:** While historically, veterans were referred to the queue regardless of their score due to the By Name List logic, **all veterans are now eligible for services** regardless of their queue status.
- **Action Required:** Going forward, please ensure that only clients who meet the score threshold of **4 or higher** are referred to the queue, even if they are veterans.

This adjustment should streamline the referral process and ensure that resources are allocated based on the updated eligibility criteria.

- A client may be enrolled in an Emergency Shelter and a PSH project while they await the PSH unit to be available; however, this stay should not be extended past the client's move-in date to PSH
- A client can only sleep in one place at a time and the HMIS record should reflect this
