[KCWA-107] Client Enrollment Details

Report Reference Tool

This report reference tool includes information for two reports: the **Homeless Status Timeline** and the **Enrollment Details Report**. These two reports are most useful when reviewed together. This tool is designed to assist you in interpreting the data in both of these reports and give you a greater understanding of how the data is queried and displayed.

- ✓ **[KCWA-106] Homeless Status Timeline Report** provides a graphical representation of a client's timeline of HMIS enrollments. It indicates the months in which a client's homelessness or housed status is documented through HMIS enrollment data and months in which homelessness cannot be determined through HMIS enrollment data. Run this report as "Web Page" to explore the drilldowns and review services and current living situation status and/or run this report as "PDF" in order to print.

[Report Element: SUMMARY - Drilldown to Client Timeline](#)

- ✓ **[KCWA-107] Client Enrollment Details** provides information on client responses to questions about their history of homelessness as well as move-in and destination at exit information. These details can help determine additional periods of homelessness for clients.

Shelter to Housing of WA

Client Name: Timeline Testclient

Unique ID: DCF6FF353

Date Range: 01/01/2015 thru 12/31/2017

Report Field: Agency, Client Name, Client Unique ID, Date Range (Reporting period)

Description:

The only parameters to enter are Start and End Dates
Date Range (Reporting period): These are the dates selected by the user in the report menu. Depending on the measure, clients may be counted if they start, exit or have an enrollment that overlaps the selected date range.

[KCWA-106] Report Section: Color Explanation Table

Color Explanation	
Emergency Shelter/Safe Haven/Street Outreach	
Permanent Housing Enrollment with Move-in Date	
Permanent Housing Enrollment without Move-in Date	
Transitional Housing Enrollment	
Other HMIS Enrollment	
PH Move-in Date	MI
No required service to confirm homelessness	NS
Service placed outside of enrollment	S

Description:

The data displayed in this report is displayed using colored boxes and/or abbreviation symbols within the box, where one box is equal to one month.

Dark Green = an HMIS enrollment in an Emergency Shelter, Safe Haven, or Street Outreach program. Emergency Shelter enrollments include night-by-night shelters.

Dark Blue = an HMIS enrollment in a Permanent Housing program (includes RRH), where a Move-In Date has been entered previously, thus indicating the client is housed.

Light Blue = an HMIS enrollment in a Permanent Housing program (includes RRH), where a Move-In Date has not yet been entered, thus indicating the client may still be homeless, depending on other data available.

Grey = an HMIS enrollment in a Transitional Housing

Yellow = other enrollments in other HMIS programs that are not shelter, outreach, or housing related.

"MI" = abbreviation displayed in box of the month in which a Move-In Date has been entered.

"NS" = abbreviation displayed in box of the month where there is a missing service of the type that would be needed to confirm homeless status (e.g., NBN bed night service) or Current Living Situation status, thus even with an enrollment the homeless status cannot be "Yes".

"S" = abbreviation displayed in box of the month of the service date but where the service is outside of the required enrollment.

Description:

- This report displays HMIS enrollments as one row per program that were active during the date range. If the enrollment was active during one day of the month it counts as being active for the whole month.
- **Permanent Housing (PH)** enrollments include "MI" notation during the month the move-in date occurred, if applicable. Months in permanent housing enrollments prior to move-in date are colored differently than months during and after move-in date.
- **Emergency Shelter (ES)** enrollments with tracking method of night-by-night indicate "NS" in any month of the enrollment that *does not* include a bed night service. HUD requires bed night services for homelessness documentation during ES enrollments for night-by-night shelters.
- **Street Outreach** enrollments indicate "NS" in any month of the enrollment that *does not* include a Current Living Situation status where homelessness is indicated (Place not meant for habitation, ES, SH). HUD requires Current Living Situation status indicating homelessness within street outreach enrollments.
- **Transitional Housing (TH)** is separate from Other HMIS Enrollments since time spent in TH must be considered as "housed/not homeless" when determining chronic homeless status, but may count as homeless in other contexts.
- **Other HMIS enrollments** are included to help create a comprehensive picture of the client's system access, although they do not provide documentation of homeless/housed status.
- All services that support homelessness that took place outside of an enrollment (ES bed night services) are colored differently than months with enrollments. This may indicate critical data that needs to be reviewed and connected to an enrollment.

SUMMARY - Homeless Status row indicates, for each month, whether a client can be counted as homeless according to HUD definition.

Results are: Yes (Y) Homeless | No (N) Not Homeless | (?) Unable to determine homeless status. Homeless Status result is based on the following criteria:

- Y: Enrollment in Emergency Shelter (entry/exit) or Safe Haven enrollment
- Y: Enrollment in Night-by-Night Emergency Shelter enrollment with at least one bed night service during the month
- Y: Enrollment in Street Outreach with at least one Current Living Situation: Place not meant for habitation, ES or SH
- Y: Enrollment in Permanent Housing enrollment without Residential Move-in Date during month or previous month and at least one of the above homeless indicators is present
- Y: Overlapping enrollments between Emergency Shelter (entry/exit) and Night-by-Night Emergency Shelter with no bed night services
- Y: Overlapping enrollments between Emergency Shelter (entry/exit) and Street Outreach with no Current Living Situation status
- N: Permanent housing enrollment with Residential Move-In Date during a previous month and no overlapping enrollment qualifying as "Y" during the month
- ?: Permanent Housing enrollment with Residential Move-in Date occurring during the month
- ?: Transitional Housing enrollment with enrollment date occurring during the month
- ?: Exit from Permanent housing enrollment occurring during the month

Report Fields: Agency Name, Program Name, Program Type, Enrollment Start Date, Enrollment End Date

Description: These first five fields provide the Agency Name, Program Name, and Type for each enrollment listed. The names and types listed match what is currently set up in the HMIS database. The Enrollment Start and End Dates show the dates as entered into the Entry Screen and Exit Screen for that enrollment. If the client is still actively enrolled in a program, the Enrollment End Date will be blank.

If the client is enrolled during any date range that overlaps with the report period, the enrollment information be shown, even the Start or End Date outside the report period.

Program Type and length of time in each enrollment can be used to identify clients who may meet the definition for chronic homelessness.

Enrollments in Emergency Shelters, Safe Havens, or Street Outreach programs suggest homelessness, but Night-by-Night Emergency Shelters and Street Outreach programs need appropriate services to be recorded as well to document homelessness. The [KCWA-106] Homeless Status Timeline Report shows all valid enrollment and service months to help document chronic homelessness.

Report Field: History of Homelessness fields

Description: The next eight columns show information provided by the client at program entry. This information can help in determining whether the client appears to meet the definition for chronic homelessness. While HMIS enrollments and services can be used for third party documentation, this self-reported information from the client, collected at program entry (see screenshot of enrollment screen), does not constitute third-party documentation of chronic homelessness. While the data above can help to fill in the gaps for a client's history of homelessness, third-party verification for institutions or other stays outside HMIS-participating programs may be needed if documentation of chronic homelessness is required.

The **Less than 7 nights** and **Less than 90 days** fields are used to determine whether a prior living situation of permanent or transitional housing can be considered homelessness or not.

- *For Housing Situations:* Did you stay less than 7 nights?
- *For Institutional Situations:* Did you stay less than 90 days?

If the answer to these questions is Yes, and the answer to "On the night before did you stay on the streets, ES or SH?" is Yes, the prior living situation can be considered homelessness.

The **Number of times** and **Total number of months homeless** can help in determining, but not documenting, chronic homelessness.

These fields help determine when a client is no longer homeless or begins a break in homelessness.

Chronic Homelessness: These reports are tools that can assist in documenting chronic homelessness, but they do not constitute chronic homeless documentation in and of themselves. All information on the reports should be reviewed for accuracy and extenuating circumstances. For more information about the [definition of chronic homelessness](#) and documentation requirements, visit [HUD's Chronic Homelessness Resources](#) webpage.

[HUD defines chronically homeless person](#) as follows:

“Chronically homeless is defined in section 401(2) of the McKinney-Vento Homeless Assistance Act, 42 U.S.C. 11360 (McKinney-Vento Act or Act), as an individual or family that is homeless and resides in a place not meant for human habitation, a safe haven, or in an emergency shelter, and **has been homeless and residing in such a place for at least 1 year or on at least four separate occasions in the last 3 years.**

The statutory definition also requires that the individual or family has a head of household with a diagnosable substance use disorder, serious mental illness, developmental disability, posttraumatic stress disorder, cognitive impairments resulting from a brain injury, or chronic physical illness or disability.”

Also see this [Flowchart of HUD's Definition of Chronic Homelessness](#) for more information about how HUD defines “separate occasions” , what constitutes a “break” in homelessness, and what counts as documentation of homeless status and/or disability status.
