

The [KCWA-101] Seattle-KC Program Outcomes Report [2019] is a locally developed report that aligns with system outcomes defined by King County and the City of Seattle. Measures on this report align with the [All Home System Performance Dashboard](#) (although users should be aware that while this report reflects real-time HMIS data, the All Home dashboard is updated quarterly). For questions regarding this reference tool and the Seattle-KC Program Outcomes Report, contact the Bitfocus Helpdesk.

Report Field: Date Range

Description: These are the dates selected by the user in the report menu. An enrollment will be included and considered “active during the report range” if:

- Start date is before or on the report end date; AND
- There is no exit date; OR
- The exit date is on or after the report start date

If the household stays in the program through the selected end date, the report will include the day of the end date. If the household exits on the end date, that date will not be counted. For example, if the report is run for the month of October (10/1 through 10/31), and the household stays in the program each night during that month, all 31 nights will be included in occupancy rates and any other relevant measure. However, if the household exits on 10/31, only 30 nights would be counted.

Report Section: Enrollment & Utilization

The **Enrollment & Utilization** table provides counts of enrollments and utilization calculations for all programs selected from the report menu and during the report period. Each enrollment is counted per household. A “household” may mean a single individual or may mean a family enrolled together. For group enrollments (families), the enrollment information is based on the Head of Household (HoH) only. Group enrollments without a designated HoH within the enrollment will not be counted.

Bolded items reflect System Performance Measures.

Report Field

Description

- New Household Enrollments During the Report Period
- Total Household Enrollments During the Report Period

The number of new enrollments during the report period, regardless of whether the enrollments are still active on the report end date or were exited before the report end date. This is not an unduplicated count. Households that enroll more than once during the report period will be counted more than once.

Enrollments are those that meet the following criteria:

- An enrollment start date on or before the report end date; AND
- There is no exit date; OR
- The exit date is on or after the report start date

(Report Section: Enrollment and Utilization - Continued)

- Household Enrollments from Homelessness During the Report Period

Please note:

Due to the Domestic Violence/Survivor criteria, Prevention enrollments may be counted as entering from homelessness.

Clients in Emergency Shelter, Safe Haven, or Street Outreach programs are considered homeless, regardless of their prior living situation. Therefore HMIS fields that “test” whether those entering from housing or institutional settings should be considered homeless are not asked on the enrollment screen for Emergency Shelter and Street Outreach programs (ie, “Length of Stay Less than 7 days / 90 days). As a result, Emergency Shelter, Safe Haven, or Street Outreach programs may have some clients who entered from temporary housing or institutional settings that are listed as not entering from homelessness on this measure.

Counts enrollments shown as entering from homelessness, where answers on the program enrollment screen equal:

For “Type of Residence” prior to program entry:

- Place not meant for habitation
- Emergency Shelter, including hotel/motel paid for with voucher
- Safe Haven

Or: For “Type of Residence” prior to program entry:

- Foster care home or foster care group home
- Hospital or other residential non-psychiatric medical facility
- Jail, prison or juvenile detention center
- Long-term care facility or nursing home
- Psychiatric hospital or other psychiatric facility
- Substance abuse treatment facility or detox center

AND “Yes” for “Length of Stay Less Than 90 Days”

AND “Yes” for “On the night before - stayed on the streets, ES or Safe Haven”

Or: For “Type of Residence” prior to program entry:

- Hotel or motel paid for without emergency shelter voucher
- Owned by client, no ongoing housing subsidy
- Owned by client, with ongoing housing subsidy
- Permanent housing (other than RRH) for formerly homeless persons
- Rental by client, no ongoing housing subsidy
- Rental by client, with GPD TIP subsidy
- Rental by client, with other housing subsidy (including RRH)
- Rental by client, with VASH subsidy
- Residential project or halfway house with no homeless criteria
- Staying or living in a family member’s room, apartment or house
- Staying or living in a friend’s room, apartment or house
- Transitional housing for homeless persons

AND “Yes” for “Length of Stay Less Than 7 Days”

AND “Yes” for “On the night before - stayed on the streets, ES or Safe Haven”

Or: “Yes” for “Domestic Violence Victim/Survivor”

AND “Yes” for “Are you currently fleeing?”

(Report Section: Enrollment and Utilization - Continued)

- Occupancy Rate During the Reporting Period

The percentage of units/beds occupied, determined by *Units Utilized* divided by *Total Unit Capacity*.

- Units Utilized** = The sum of unit nights for each **Head of Household (HoH)** during the report period.
 - Unit nights (Night by Night Shelters) = # of nights checked into shelter
 - Unit nights (All other programs) = # of nights enrolled in program
- Total Unit Capacity** = Unit inventory \times number of nights available during report period. The report uses unit availability dates as entered by the System Administrator into Clarity in order to account for seasonal units that may change inventory mid-month.

NOTES:

- (1) This report measures occupancy based on numbers of **households** occupying **units**; therefore, it accurately reflects utilization in family programs as well as single adult programs.
- (2) Occupancy rate data in this report is only available for program types that offer beds/have "inventory" programmed into HMIS. When 100% of the programs selected do NOT offer beds, the report will show "N/A" for the occupancy rate. When a mix of programs that DO offer beds and programs that do NOT offer beds is chosen, the occupancy rate will apply only to the programs that have beds and will not reflect any information for the programs that do not contain beds. For this reason, occupancy rate should only be used to measure program utilization when all of the programs selected offer beds.
- (3) The drilldown shows "# of Units" which equals # of nights for the HoH's enrollment shown in list.

Report Section: Outcomes

The **Outcomes** table provides counts of exit outcomes and average length of stay for all programs selected from the report menu and during the report period. In the Equity Outcomes section, overall outcomes are broken out by race and ethnicity. Bolded items reflect System Performance Measures.

NOTE: Program enrollments with an “Exit Destination” of “Deceased” are not counted in this section.

Outcomes Section: Overall

Report Field

Description

- Household Exits

NOTE: Program enrollments with an Exit Destination of “Deceased” are not counted in this section

Number of exits from the program during the report period.

(Report Section: Outcomes; Outcomes Section: Overall - Continued)	
<ul style="list-style-type: none"> Household Exits to a Permanent Destination 	<p>“Exit Destination” field indicated any of the following destinations:</p> <ul style="list-style-type: none"> Moved from one HOPWA funded project to HOPWA PH Owned by client, no ongoing housing subsidy Owned by client, with ongoing housing subsidy Permanent housing (other than RRH) for formerly homeless persons Rental by client, no ongoing housing subsidy Rental by client, with RRH or equivalent subsidy Rental by client, with GPD TIP housing subsidy Rental by client, with VASH housing subsidy Rental by client, with other ongoing housing subsidy Rental by client, with HCV voucher (tenant or project based) Rental by client in a public housing unit Staying or living with family, permanent tenure Staying or living with friends, permanent tenure
<ul style="list-style-type: none"> Household Exits to a Temporary Destination 	<p>“Exit Destination” field indicated any of the following destinations:</p> <ul style="list-style-type: none"> Moved from one HOPWA funded project to HOPWA TH Staying or living with family, temporary tenure Staying or living with friends, temporary tenure Transitional housing for homeless persons Host Home (non-crisis) <p>Note: These destinations do not reflect the full list of HUD’s HMIS Temporary/Institutional Exit Destinations</p>

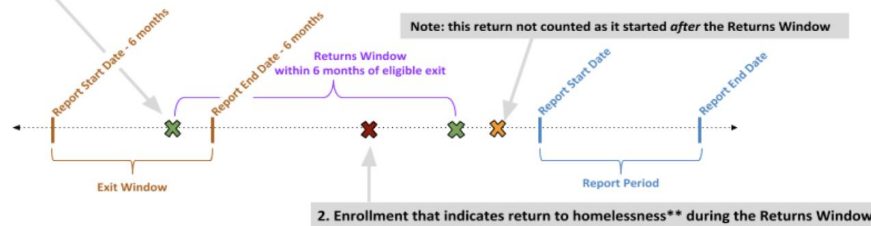

(Report Section: Outcomes; Outcomes Section: Overall - Continued)

- Return to Homelessness Rate

NOTE: Program enrollments with an Exit Destination of “Deceased” are not counted in this section

The report creates an **Exit Window** by subtracting 6 months from the report start and end dates and then identifies all enrollments with 1) exits to a PH destination during the relevant Exit Window. Households with 2) subsequent enrollment in ES, TH, RRH, PSH, or Safe Haven at **any agency** during the **Returns Window** (6 months from exit date) are included in the Return to Homelessness column (see graphic below for more details). The Returns Window is shortened to the end of the report end date if the 6 months extends past report period end date.

1. Exit to a permanent destination* during the exit window

2. Enrollment that indicates return to homelessness** during the Returns Window

* *Permanent Destinations* are those listed under “Households Exits to a Permanent Destination” above.

** *Returned to Homelessness* is defined as any subsequent enrollment in ES or SH, or any subsequent enrollment into TH, RRH, or PSH that occurs more than 14 days after exit to permanent destination. Examples:

- Client exits from RRH and uses HP – Not a return
- Client exits from RRH and uses ES four months later – Return
- Client exits from RRH and uses ES a year later – Not a return
- Client exits from ES and enters PSH within a week – Not a return
- Client exits from ES and enters PSH two months later – Return
- Client exits from ES and enters another ES or SH program – Return

- Average length of stay

This is the average length of time in days for all enrollments during report period (both those exited and those not exited), between enrollment date and exit date or, if no exit date, end of report period.

Outcomes Section: Equity Outcomes	
Report Field	Description
	NOTE: Program enrollments with an Exit Destination of “Deceased” are not counted in this section
<ul style="list-style-type: none"> American Indian or Alaska Native Households Asian Households Black or African American Households Native Hawaiian or Other Pacific Islander Households White Households 	For each outcome described in the Overall section, counts of exits by race. For the Head of Household, the response option equals the description to the question about race. No other race was selected.

Report Section: Consent Rate and Data Completeness Scores

The **Consent Rate and Data Completeness Scores** table provides information about rate of clients consenting to have identifying information in HMIS, as well as rates of missing data collection. Null values are entirely excluded from all measures in this section, including Total Number of Data Fields Evaluated, % of Data Completed, % of "Don't Know" Fields, % of "Data Not Collected" Fields, and % of "Refused" Fields.

Report Field

Description

- Unique Client Count

Sum of all active clients (not just Head of Household) who meet the following criteria:

- They have an enrollment start date on or before the report end date; AND
- There is no exit date; OR
- The exit date is within the report period.

(Report Section: Consent Rate and Data Completeness Scores Continued)

- Total Number of Data Fields Evaluated

The total number of data fields that are not null on program entry and program exit screens for all clients included in *Unique Client Count* as described above.

This measure depends upon the *Intake Type*.

For *ALL* clients, whether Minimal or Standard Intake is used, the following fields are always included:

- Quality of Name
- Quality of Date of Birth
- Quality of SSN
- Gender
- Race
- Ethnicity
- Veteran Status
- Prior Living Situation
- Length of Stay in Prior Living Situation
- Number of times on the streets, in ES, or SH in the past three years
- Total number of months homeless on the streets, in ES, or Safe Haven in the past three years
- Disabling Condition

In addition to the fields above, the *Standard Project Enrollment*, also includes the following fields:

- Physical Disability
- Long Term Physical Disability
- Developmental Disability
- Substantially Impairs Independence
- Chronic Health Condition
- Long Term Chronic Health Condition
- Mental Health Problem
- Long Term Mental Health Problem
- Substance Abuse Problem
- Long Term Substance Abuse Problem
- Victim of Domestic Violence
- Are you currently fleeing?
- Income from Any Source
- Receiving Non-Cash Benefits
- Covered by Health Insurance

(Report Section: Consent Rate and Data Completeness Scores Continued)	
<ul style="list-style-type: none"> HMIS Consent Rate 	Percentage of clients included in Unique Client Count who have signed a release of information form. This is determined by calculating the % of clients whose first and/or last name does NOT include the letters "refu" or "anon". This is intended to capture clients who have the words "Refused" or "Anonymous" in either their first or last name, but also account for any misspelling or abbreviation.
<ul style="list-style-type: none"> % of Data Completed 	The percentage of fields included in Total Number of Data Fields Evaluated for which a value was entered and an answer other than "Client doesn't know," "Client Refused," or "Data not collected" was selected.
<ul style="list-style-type: none"> % of "Don't Know" Fields 	The percentage of fields included in Total Number of Data Fields Evaluated for which "Client doesn't know" was selected.
<ul style="list-style-type: none"> % of "Data Not Collected" Fields 	The percentage of fields included in Total Number of Data Fields Evaluated for which "Data not collected" was selected.
<ul style="list-style-type: none"> % of "Refused" Fields 	The percentage of fields included in Total Number of Data Fields Evaluated for which "Client refused" was selected.

Report Section: Programs

PROGRAMS		
Program ID	Program Name	Program Intake Type
Emergency Shelter		
2373	Main Street Shelter and Outreach	Standard Project Enrollment
2459	NBN Shelter	Standard Project Enrollment
PH - Permanent Supportive Housing (disability required)		
2388	Doe Street PATH	Standard Project Enrollment
Services Only		
2457	Regional Access Point - South RAP	Standard Project Enrollment
Street Outreach		
2376	Encampment Outreach Team	Standard Project Enrollment
2438	Puget Outreach Team	Standard Project Enrollment
Day Shelter		
2458	Puget Day Shelter	Standard Project Enrollment
2386	Youth Day Center	Standard Project Enrollment
PH - Rapid Re-Housing		
2455	RRH Project	Standard Project Enrollment

Description: The **Programs** section at the bottom of the report lists the programs that were selected for inclusion in the report, by program type. For each program, the section also specifies the **Clarity Program ID** and whether that program uses the Standard Project Enrollment or Minimum Project Enrollment.

Program Type: Following HUD Data Standards, the following program types are available in Clarity Human Services:

1. Emergency Shelter
2. Transitional Housing
3. PH - Permanent Supportive Housing (disability required)
4. Street Outreach
5. Service Only
6. Other
7. Safe Haven
8. PH - Housing Only
9. PH - Housing with Services (not disability required)
10. Day Shelter
11. Homelessness Prevention
12. PH - Rapid Re-Housing
13. Coordinated Assessment
