# Prior Living Situation questions

## Definition:

- To identify the type of living situation and length of stay in that situation just **prior** to project start for all adults and heads of households. This data element is to be used with other information to identify whether a client appears to meet the criteria for chronic homelessness.

## When are questions regarding Living Situation collected?

- Living Situation is collected at project start. Staff should ask clients about their homeless history, including specific instances the client spent on the street, in an emergency shelter, or in a Safe Haven project. This may require defining or explaining each field to the client.

## How do I respond to living Situation questions?

The responses are intended to reflect from the client's last living situation immediately prior to the Project Start Date. For projects that do not provide lodging, the 'prior' living situation may be the same as the client's current living situation.

## Enroll Program for client Harry Fake

Project Start Date	01/25/2019 
Is the Client an Adult or Head of Household?	Yes (Automatically Generated Response) 
Is the Program Type a Permanent Housing Program Type?	Yes (Automatically Generated Response)

3.917: For All Other Project Types

# Living Situation questions

## 3.917: For Street Outreach, Emergency Shelter, Safe Haven

1. Where was the client just before project start?

2. How long ago did the client start staying in that place?

3. How long has the client been in a "literal homeless" situation?

4. How many times has the client been in "literal homeless" situations in the past 3 years?

5. How many cumulative months has the client been in "literal homeless" situations in the past 3 years?

---

# Destination

## Definition:

- To identify where a client will stay just after exiting a project for purposes of tracking and outcome measurement.

## When is Destination collected?

- Collected at project exit. Note that the client's Destination is about where they are staying, not necessarily about why they are staying there. So the choice of the destination in HMIS should reflect the client's living situation when leaving the project.

## What if my client is transferring projects?

## Indicate that the client is moving to a permanent destination:

**Permanent housing (other than RRH) for formerly homeless persons**

# Community Queue Updates

---

# Community Queue Referral Threshold

- Referrals to the community queue no longer remain for a 90 day time period.
- Referrals must be updated within 30 days (marked pending-in process, referral notes) to remain on the queue
- If the referral is not updated prior to 30 days, it will fall off the queue and a new referral is required.

# Non-Cash Benefits Refresher

## Definition:

- Non-Cash Benefits are intended to identify regular, recurrent benefits. Services and/or gifts such as phone cards and vouchers that are provided by a project to clients during enrollment are fundamentally different and are not considered benefits.

## When are non- cash benefits collected?

- Non-Cash Benefits collected at project start and project exit are to reflect the information as of the date of project start and the date of project exit. 'Information Date' for those records must reflect the date of project start and the date of project exit, respectively.

## What non-cash benefits data are collected?

- CalFresh (SNAP)
- Special Supplemental Nutrition Program for Women Infants and Children (WIC)
- CalWorks ChildCare Services (TANF Childcare)
- Calworks Transportation Services (TANF Transportation)
- Other CalWorks funded services (Other TANF Funded Services)
- **Other Non Cash Benefits**
