

2024 Data Standards Updates

Profile Screen Changes

Some of the fields on the profile screen in ONE have changed with the 2024 HMIS Data Standards release. Here are examples of what to expect with the new fields.

Gender Identity

The gender identity field has been updated to more closely align with how clients self-identify. The new options are listed below:

What is the client's current gender identity?

Select

- Woman (Girl, if child)
- Man (Boy, if child)
- Culturally Specific Identity (e.g., Two-Spirit)
- Transgender
- Non-Binary
- Questioning
- Different Identity
- Client doesn't know

Race and Ethnicity

Race and Ethnicity have been combined into a single field. "Middle Eastern or North African" has been added as a new option. Previous answers have been mapped to the new answer options, however, we recommend users revisit this question with clients to ensure the response best fit how clients self-identify. You may select multiple options and add additional responses in the "Additional Race and Ethnicity Detail" field.

Race and Ethnicity

Select

Additional Race and Ethnicity Detail

- American Indian, Alaska Native, or Indigenous
- Asian or Asian American
- Black, African American, or African
- Hispanic/Latina/e/o
- Middle Eastern or North African
- Native Hawaiian or Pacific Islander
- White
- Client doesn't know
