New Requirements in ONE

• Annual Assessments

- Annual Assessments provide the most up to date information regarding the tenant and progress towards housing stability.

• Tracking Eviction Notices & Unlawful Detainers (UDs)

- Eviction Notice and Unlawful Detainer Data helps HSH gather trends for both internal and external review and learning. Internally, HSH will use this data to understand eviction and unlawful detainer trends across the system and overlay ONE system demographic data to understand these trends through an equity lens. Externally, HSH can report trends and findings to the Board of Supervisors.

• Tracking Exit Reasons (including Eviction)

- Exit reasons describe why a person exits PSH and helps HSH and the community understand trends in exits across the PSH portfolio.

Service providers should collaborate with property management staff to receive information on eviction notices, UD's, and exit reasons to enter into ONE
