## Context

---

Inventory in the ONE System allows for precise tracking of units, beds, and associated clients for Temporary Shelters. As you use this guide, please note that in the context of Temporary Shelter, “units” are the equivalent of “beds” in the ONE System interface.

## What Inventory Does

---

Inventory in ONE is:

- A set of tools built into the ONE System
- A way to track and view available beds with precision and transparency
- Information that will help better match clients to the beds that fit their needs

Using Inventory in ONE helps with the following:

- Streamlines workflows and better serves clients
- Provides more transparency into the overall Temporary Shelter portfolio
- Supports reconciliation and communication by being a reliable source of truth
- Provides better and more timely information to HSH and the community about which beds are unoccupied, for how long, and why

## Monitor Incoming Referrals – Guest Placement Referral Sites ONLY

The Referrals tab displays incoming guest referrals. Email alerts can also be configured to alert you via email every time a referral is sent to your site.<sup>1</sup>

### Overview

Use the **Referrals** tab to monitor incoming referrals to your shelter site. Only sites that receive referrals from Guest Placement will receive referrals in this tab. A client’s profile can be accessed directly from the Referral tab and enrolled to a program.

### Step by Step

1. Locate the **Referrals** tab in the top menu bar of the ONE System. If you don’t see the Referrals tab, click the **Search** tab (please note that the Referral tab does not display if you have clicked to view a particular client’s profile).

2. Under **Pending Referrals**, all active referrals to your Agency will be displayed. The destination for each client is displayed underneath the guest name. Please note that for non-congregate sites receiving a couple, only the Head of Household will appear in the Pending Referrals tab.

#### Pending Referrals

Search	<input type="text"/>	Mode	Standard	▼
Sort By	Program Name	Characteristic	-- Select --	▼
<input type="checkbox"/>	Eligible Clients Only	<b>SEARCH</b>		
Client	Referral Date	Qualified	Days Pending	
Cal Bear Program: Ellis Semi - Congregate Shelter - GF Referred by: TRAIN - Department of Homelessness and Supportive Housing	06/28/2024	No	0 total 0 pending	

Since all referrals to your Agency are shown, you may see referrals to multiple different sites. You can use the *Sort By* filter to group referrals by site or use the *Search* bar to search for a client name.

3. Click the client’s name to access their profile. You can proceed to the next section of this guide.

<sup>1</sup> If you would like email alerts configured, please reach out to onesf@bitfocus.com.

## Accept and Enroll Clients in Program

Enroll clients the day that they arrive on site. If they do not arrive, deny the referral as soon as you know they are not coming, or by the end of your intake window.

### Overview

Enroll clients in the program as soon as possible when they arrive. Navigate to the client profile and the **Programs** tab in their record. Select the correct program under **Programs: Available**. Ensure that the “Program Placement a Result of Referral” toggle is ON. *If this toggle is not on, please contact the Guest Placement team.* Enroll the client.

Please note that couples at non-congregate sites have special considerations when completing enrollments. Look for the corresponding icons below to ensure proper enrollment. These steps only apply to non-congregate sites! Congregate and semi-congregate sites should enroll couples individually to their own bed.

### Step by Step

1. Open the client profile and click into programs. Under **Programs: Available**, click on the appropriate program to expand. You can access the referral record here by clicking on the pencil icon next to the referral record in the list.

You can also access the client record by clicking on the client’s name from the **Pending** tab in **Referrals**.

The screenshot displays the 'REFERRALS' section of the HSH ONE System. On the left, under 'Pending Referrals', a client named 'Client Test' is listed with a pencil icon. A green box highlights this client name. In the main content area, the 'PROGRAMS: AVAILABLE' section is expanded, showing a dropdown menu with 'Hope Hall Shelter Program' selected. A second green box highlights this dropdown menu. A green arrow points from the first box to the second. The 'PROGRAM HISTORY' section shows a table with columns for Program Name, Start Date, End Date, and Type. The table contains one entry: 'Dolores Street Community Services Access Point' with a start date of 02/27/2023 and an end date of 04/18/2023, categorized as 'Individual'. The 'PROGRAMS: AVAILABLE' section lists 'Hope Hall Shelter Program' and 'Proctor Place Apartments'.

2. There should be an orange box [1] identifying that there is a pending referral to this program. Ensure the toggle that says 'Program Placement is a result of Referral' [2] is ON. *If it is not selected, please contact the Guest Placement team to ensure proper referral.*

For enrollments at **congregate and semi-congregate sites**: Be sure to enroll each household member separately. This will allow them to correctly be assigned to their individual beds. The toggle for **Include group members** should be turned OFF [3].

For couples at **non-congregate sites**, ensure the toggle for **Include group members** is turned **ON** [3] for any group member who is part of this stay.

Include group members:

Domino Halgrim

3. Select the **Enroll** button [4]. Doing so will accept the referral and link it to the enrollment record.
4. Complete the enrollment, answering all questions.

## Assign Client to a Bed – Self-Enrollment Sites ONLY

### Overview

If a referral to your site does not come with a bed already assigned, you will need to assign a bed once you've enrolled the client. (Please note: as of July 2024, this *only* applies to Dolores Shelter and Kinney Hotel Stabilization Rooms.)

Under the program tab in the appropriate client, click 'Add Unit' on the right side of the screen. Select the start date, and leave the end date and eligibility override sections as is. Under 'Available Units' start by selecting **Client Profile Only**, then the appropriate bed or unit from the available options. All enrolled clients should be associated with a bed or unit number.

### Step by Step

1. Under the **Program**, select the **Unit** tab.

The image shows two screenshots from the HSH ONE System. The top screenshot displays the 'Client Test' profile page with the 'PROGRAMS' tab selected. The 'PROGRAM: HOPE HALL SHELTER PROGRAM' is visible, and the 'Add Unit/Bed' button is highlighted with a green box. A green arrow points from this button to the 'ADD UNIT/BED' pop-up form shown in the bottom screenshot. The pop-up form contains the following fields: 'Start Date' (08/29/2023 4:00 PM), 'End Date', 'Eligibility Override' (toggle switch), and 'Available Units/Beds' (dropdown menu). At the bottom of the form are 'ADD' and 'CANCEL' buttons. The current instance time is 08/29/2023 3:52 PM.

2. Select the **Add Unit** option.
3. In the pop-up, fill in the start date. This is the first night the client is sleeping in the bed. Under **Available Units/Beds**, select Client Profile only to expand the choices. Select the correct bed, and confirm to assign the client into their new bed.
4. If an error message occurs when selecting **Available Units/Beds**, turn on the **Eligibility Override** toggle and try again.

## Exit Client From a Program

Exiting a client from a program also exits them from their bed.

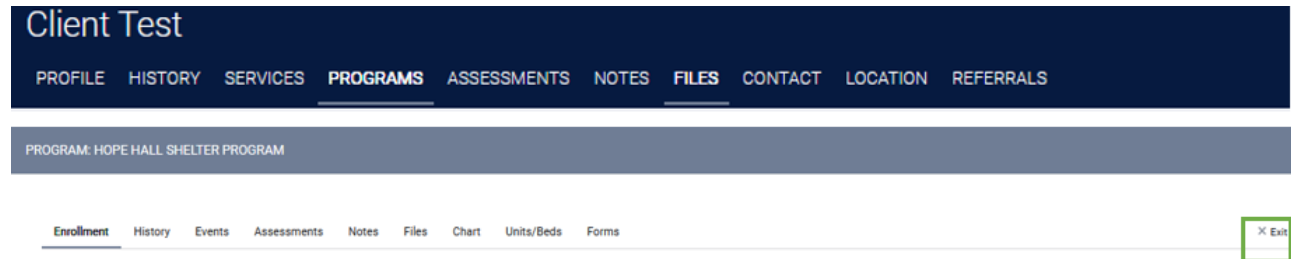

Update ONE before 8 am the day after a client exits.

### Overview

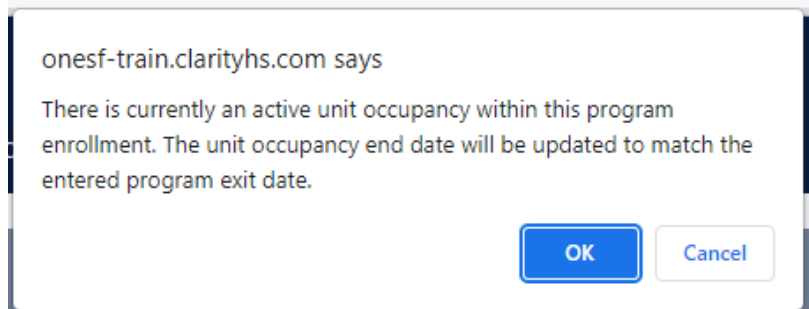

Exiting a client from the program will also exit a client from their assigned bed. Exit the client from the program by selecting the appropriate client, navigating to the program, and choosing 'Exit'.

### Step by Step

1. Open the client record by searching for the client, navigating to **Programs**, select the appropriate program and click the pencil icon to edit. You can also open the program record directly by selecting the client from your **Caseload** list.
2. Select the **Exit** button on the far right, and complete all exit screens.

3. By exiting the client from the program, they will also be automatically exited from the bed or unit. Once the client assigned to that bed or unit is exited, the bed will be automatically updated to Available. Select OK to confirm that the unit will be marked available as of the program exit date:

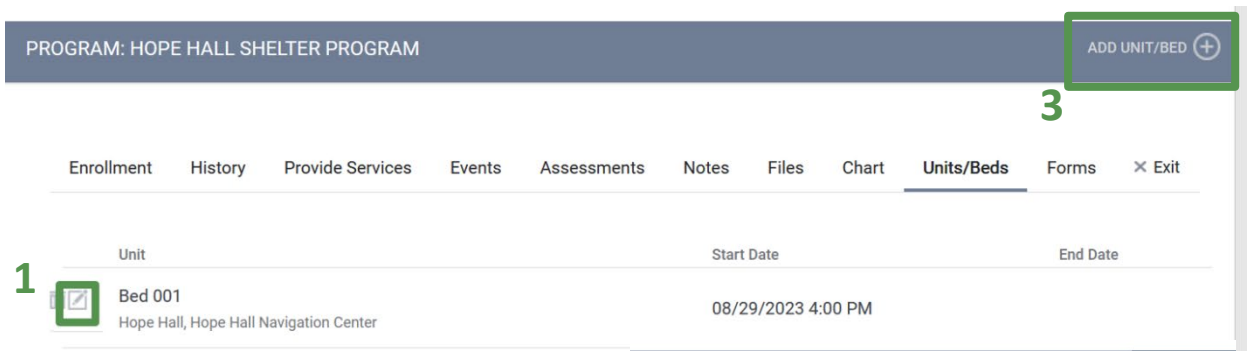

## Transferring a Client to a New Bed

### Overview

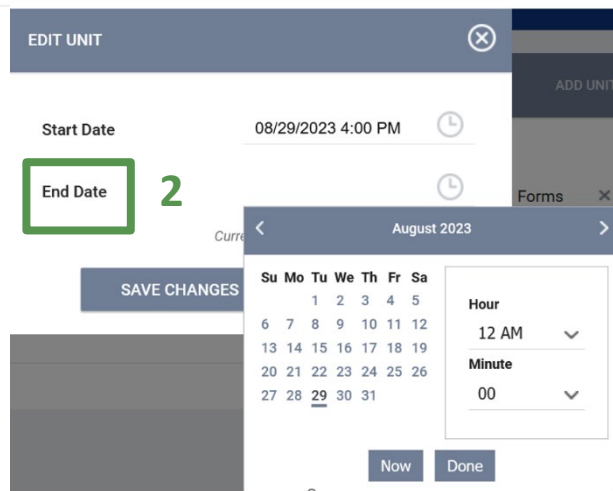

When a client needs to switch beds, begin by searching for the client. Open their profile, select **Programs** from the menu and select the appropriate program. Navigate to the **Units/Beds** tab under the Program tab. After adding an end date to their current occupancy, add their new Unit/Bed.

### Step by Step

1. Open the client profile and navigate to their current enrollment at your site. Under the Units/Beds tab, you will see their current bed assignment. Changes can be made by clicking the pencil tool next to the bed number [1].

2. An end date and time must be entered [2]. Be sure to hit the *Save Changes* button.
3. Stay on the Units/Beds tab and select the **Add Unit/Bed** tool [3] to assign a new bed.
4. In the pop-up window, fill in the start date. Under **Available Units**, select the new bed, and confirm the assignment.

## Review Reports for Accuracy

New and updated reports are available in ONE.

Check rosters to ensure accuracy.

### Overview

Review rosters often to ensure that the information in ONE is accurate. To confirm that clients are associated with their current units or beds in ONE, review the **Program Roster Report**, which includes the unit numbers associated with a client’s program enrollment. Additional helpful reports can be found in the Data Analysis tab under **Inventory - Temporary Shelter**. To confirm that beds or units are correctly identified as occupied, offline, or vacant, review the **Bed Assignments and Statuses report**.

### Step by Step

The Program Roster is available to all users within an agency and shows all clients enrolled in a program with their unit/bed assignment.

#### 1. Program Roster

- a. Under the waffle tool, select **Reports**.
- b. Under the **Report Library**, expand **Program Based Reports**. Find **Program Roster**, and click to run.

- c. The **Bed Assignments and Statuses** report provides a high-level overview of bed assignments and statuses by shelter or building. It shows how many clients are assigned to a bed and how many are unassigned. This report is useful for ensuring that all the clients at your site are assigned to a bed. At the bottom of the report, you can see exactly which clients are unassigned and click a link to go directly to their profile.

Counts of Clients by Assignment Status

177	176	1
121	120	1
197	197	0
42	42	0
178	178	0

The report also shows the number of beds at each site that are Available, Inactive, or Occupied. This is useful for seeing an overview of all beds and their status.

- c. The **Shelter Bed/Unit Roster** report provides a summary and detailed roster of beds in a building by their status and availability. You can filter this report to only show beds of a certain availability type. For example, if you only want to view offline beds, select **Offline** under the **Current Availability** filter to limit the results. Be sure to refresh the report with  the blue arrow button if you update the filters. The roster view includes client names, ONE IDs, links to profile, and start dates for the results. Only the head of household will appear on this report as assigned to a bed.
