HSH has launched Coordinated Entry and its community Access Points. Access Points are how people experiencing homelessness access San Francisco's Homelessness Response System to figure out which services they *may be* eligible to access including:

- **Problem Solving:** creative options to avoid entering the homeless response system.
- **Housing Resources:** including Rapid Re-Housing and Permanent Supportive Housing.
- **Supports:** including care coordination, case management, and crisis intervention.
- **Linkages:** including referrals to appropriate medical, mental health, substance use, and social service programs.
- **Benefit Supports:** including help applying for Medi-Cal, County Adult Assistance Program (CAAP), SSI, CalFresh (formerly called Food Stamps), and CalWORKS.

Client information is collected in the ONE System and used by or shared to housing and service providers (each, a "Partner Agency", and collectively, the "Partner Agencies"), which includes community-based organizations and government agencies (such as the Department of Public Health or the Human Services Agency). A list of Partner Agencies can be found at hsh.sfgov.org. Partner agencies use the information in the ONE System to: match clients to, and allow staff to coordinate, appropriate housing resources and related services; improve the quality of housing and related services; conduct needs assessments and prioritize services for certain homeless and low-income services; improve coordination between City agencies and providers; and to evaluate the delivery, impact, and quality of HSH housing and related services.
