

INVENTORY Readiness Assessment

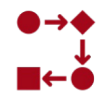

Goals

- What is your goal for using Clarity INVENTORY?
- Do you have a clear use case for using Clarity INVENTORY?
- Are you looking to phase out an external inventory management system?

Capacity

- Do you have at least two staff that have familiarity with your housing portfolio and coordinated entry process who are available to manage this project?
- Do you have the staff capacity to maintain INVENTORY when the project is completed?

Workflows

- Have you identified what housing types your community wants to use INVENTORY for?
- Do you have established referral workflows for housing and shelter?
- Are you ready to transition to a new referral workflow?

Data Entry

- Is the housing/shelter data quality high enough that it won't cause data quality issues with INVENTORY?
- Do you have an established process or policy that holds providers accountable for timely data entry?

Reporting

- Do you need to improve real-time visibility into housing and shelter availability?
- Are there reporting needs you're unable to produce because of a lack of accurate housing or shelter data?
