

Access Roles

This document outlines ONE System Access Roles. Access Roles have been determined based on the staff roles, maintaining client privacy and access to ONE functionality needed to do each job. ONE System Access Roles do not necessarily correlate with internal staff titles, please review functionality carefully to determine the best role(s) for your user(s). To request a change in access roles for a user, agency leads should contact the help desk at onesf@bitfocus.com. For any questions about access roles, contact onesf-admin@bitfocus.com.

ACCESS ROLE NAME	ACCESS ROLE FUNCTIONALITY
VSP (Only designated VSP agencies Asian Women's Shelter, Safe House, and St. Vincent De Paul-Confidential)	VSP will have the ability to see the client profile page, history, report library and cannot enter any data into ONE. This access role has the most limited functionality.
Property Manager	This is a very restricted access role, usually for users who work in property management and manage openings for a housing portfolio.
Shelter Staff	Users with this access role may need to enter shelter reservation information in ONE. Staff will have limited access to client information. They will have the same access as VSP, with the additional ability to view the programs tab, run reports and use the attendance tool.
Shelter Staff + Client Referrals	This access role has the same level of functionality as the Shelter Staff access role, but also has access to program referrals.
Shelter Case Manager	This access role is for users who will be providing case management/direct services to clients staying in a shelter. Staff will be able to access all client level information except the assessment tab. This access role has the ability to run reports and use the attendance tool.
Shelter Case Manager + Client Referrals	This access role has the same level of functionality as the Shelter Case Manager access role, but also has access to program referrals.
Housing Program Manager	Housing staff in this role may be responsible for posting open units, processing housing referrals (accepting or denying the referral). Staff will be able to access all client level information except the assessment tab. <u>Please note that if staff complete Annual Assessments (or oversee programs that</u>

Access Roles

	<u>require Annual Assessments), please request the Housing Case Management access role.</u>
Program Supervisor (non-housing program) Access Partner	This access role is designed for staff who need access to run reports, monitor data quality and see client level information. This is intended for supervisors or access partners who do not oversee housing programs and who do not need access to referral information.
Street Outreach	These access roles are able to see all client-level information for ease of care coordination and connection to Coordinated Entry.
Agency Lead Agency Lead Data	These access roles have the least restrictive access in ONE. It is designated for staff that have access to all client level information, referrals and may need matchmaking functionality. Users in this role may need access to information entered by agencies other than their own for purposes of Coordinated Entry. Agency Lead Data users will have access to save data analytics information.
Access Point Staff Access Point Manager/ Vets BNL Agency Manager Housing Case Management	These access roles have the least restrictive access in ONE. It is designated for staff that have access to all client level information, referrals and may need matchmaking functionality. Users in this role may need access to information entered by agencies other than their own for purposes of Coordinated Entry. Users with these access roles may have data analytics information.
Navigation Case Management (Assessment) (Navigation Centers only)	This access role has the least restrictive access in ONE. It is designated for staff that have access to all client level information, referrals and may need matchmaking functionality.
HSH Analyst* HSH Staff* HSH Matchmaking* * Only for HSH Staff	These access roles have the least restrictive access in ONE. It is designated for staff that have access to all client level information, referrals and may need matchmaking functionality Users will have access to data analytics information. HSH Analyst users will have access to save data analytics information.
